

RUFFORD

Everyone has something to say about where they live

What Are Your Needs & Issues ?

A Quality Of Life Questionnaire

Rufford is currently taking part in a community and village appraisal process called REAL (Rural Evaluation and Action for Lancashire).

The aim of this process is to help local residents identify their local needs and issues and to then work together to shape a positive future that meets these changing needs.

A number of consultations have already taken place, including a Community Exhibition and Visioning Event, held on Sunday 13th October.

This questionnaire supports the work already done which has asked about areas of concern and future needs for the village. The questionnaire will provide important information about the present quality of life in Rufford and may identify other areas for change. The data collectively will help plan the way forward for Rufford over the next few years.

- ✓ Any information you provide in the questionnaire is confidential
- ✓ A pre-paid envelope has been provided for return of the questionnaire
- ✓ Your questionnaire is still of use in the village appraisal even if you do not complete every question. Please complete as much as you feel happy to.
- ✓ All residents are invited to complete the questionnaire, even if you have already taken part in the other consultations

Once the data has been collected, the REAL team will work with the Steering Group of local residents helping to deliver this project, to produce a report on the issues and discussions that arise from this community appraisal.

Thank You for helping build a more complete picture of the parish
